New Hair Growth After BALDNESS HAIR GROWN ON MR. BRITTAIN'S BALD HEAD BY

INDIANS' MYSTERIOUS HAIR GROWER My head at the top and back was absolutely bald. The scalp was shiny. An expert said that as he thought the hair roots were extinct, and there was no hope of my ever having a new hair growth. Yet now, at an age over 60. I have a hixuriant growth of soft, strong, lustrous hair! No trace of baldness. The pictures shown here are from my photographs.

Indians' Secret of Hair Growth

At a time when I had become discouraged at trying various har lottons, tonics, apecialita' treatments, etc., I came across, in my travels, a Cherokes Indian "medicine man" who had an ellair that he asseverated would grow my hair. Although I had but little faith, I gave it a trial. From recent photo. To my amazement a light furz soon appeared. It developed day by day, into a healthy growth, and ere long my hair was as prolific as in my youthful days.

That I was estomished and happy is expressing my state of mind mildly. Giviously, the hair roots had not been dead, but were dormant in the scalp, awaiting the fertillizing potency of the mysterious pomade.

I nogotiated for and came into possession of the principle for preparing this mysterious clixir, now called Kotalko, and later had the recipe put into practical form by a chemist.

That my own hair growth was permanent has been amply proved, Many mon and women, also children, have reported satisfactory results from Kotalko,

How YOU May Grow YOUR Hair

Туко

My honest belief is that heir roots rarely die even when the hair falls out through dandruff, fever, excessive dryness or other disorders. I have been told by experts that often when hair falls out the roots become imbedded within the scalp, covered by hard skin, so that they remain for a time like builts or sects in a battle which will grow when fertilised. Shampoes (which contain alcohol are enemies to the hair, as they dry it, making it brittle, Kotalko contains those elements of nature which give new vitality to the scalp and hair.
